PARADOX ABOUT INFINITI.

BACHELOR IN PHYSICAL SCIENCES FOR U.N.E.D.

NOVEMBER 9; 2.023

EXPOSURE.

Between the numbers 0 and 1 there are infinite numbers.

These infinite numbers are bounded by the number 1,

how can an infinite number of numbers result in a finite number, 1 in this case?

I thank the reader for the time spent, as well as for their comments that you can send me by e-mail:
